I. PRODUCT OVERVIEW

Surgical Mask BS EN 14683:2019+AC TYPE II

Face guard FGMSM 1200 series three layers medical grade disposable surgical masks engineered for exceptional comfort and maximum protection, using only highest quality technical non woven fabrics.

Each mask offers 98% bacterial filtration efficiency and complies with the BS EN 14683:2019+AC Type II standard.

Global Health & Safety surgical masks offer proven filtration and may help to minimize the risk of transmission of viruses without compromising comfort and breathability.

III. PACKAGING OVERVIEW

All our products are constructed with the highest standards of protection and breathability using only raw materials from reputable manufacturers with top of the line quality. Advanced technological solutions are at the core of our company operations. Our innovative packaging contains crucial and key information to ensure quality and traceability of each product produced. We use GS1 barcoding which includes GTIN13, GTIN14 and GLN to reduce handling and processing time, ensuring all deliveries reach their correct destination on time.

EACH BOX CONTAINS;		FEATURES
LOT NO	✓	One Size
EXPIRY DATE	✓	Soft Touch
PRODUCTION DATE	✓	Latex-Free
MANUFACTURER INFO	✓	Disposable
GTIN 13 BARCODING (BOX)	✓	Three Layers
GTIN 14 BARCODING (CASE)	✓	High Breathability
TEMPER EVIDENT SECURITY SEAL	✓	Comfortable Earloops
SECURITY HOLOGRAM	✓	Hi-Tech Premium Melt Blown Filter Media

IV. IMPORTANT INFO

This medical face mask cannot stop the transmission of all germs in the air, does not eliminate the risk of disease or illness, and does not replace protective measures. Practice good hygiene. Wash your hands frequently and refrain from touching your nose, mouth or eyes. Do not clean or sterilize for re-use.

Each mask is single-use only and should be disposed immediately after use. You should also remove and replace your mask when they become moist, as this can impact the effectiveness of the filter.

FGMSM 1200 series medical face masks should be used in a setting where exposure to fluid is not a risk

V. DIRECTIONS FOR USE

- Wash your hands with soap and water, then take the mask out of its packaging.
- Hold the mask by ear loops. Place a loop around each ear.
- Avoid touching the inner layer while putting the mask on.
- Pinch the nose clip to the shape of your nose.
- Pull the bottom of the mask over your chin.
- Mask should cover your mouth, nose and chin snugly but comfortably.

VI. HOW TO REMOVE THE FACE MASK

- Clean your hands with soap and water or hand sanitiser before touching the mask.
- Avoid touching the front of the mask. Only touch the ear loops.
- Hold both of the ear loops and gently lift and remove the mask from your face.
- Dispose of the mask in the bin.
- Clean your hands with soap and water or hand sanitiser.

VII. WARNINGS

- Single use only. Must be discarded after each use.
- To be used in a setting where exposure to fluid is not a risk.
- Do not use except as indicated.
- Do not use in the presence of a high heat source.
- Check the mask before use for any signs of damage or deterioration.
- Store in a dry and cool place.
- Non-sterile.

VIII. REGULATORY

BS EN 14683 : 2019 + AC

MEDICAL DEVICE CLASS I

IX. STORAGE CONDITIONS

Store under ambient temperature and dry conditions. Avoid excessive heat.

Shelf life 2 years after the date of production.

Maximum **Comfort** and Highest **Protection**
